-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following invention is required under 35 U.S.C 121:
 - A. Claims 1-22 are drawn to a method and system for delivering digital objects and content associated with a web page to a user, classified in **class 709, subclass 218**.
 - B. Claims 23-26 are drawn to a method for integrating a personalization system with a cache-enabled system, classified in **class 707, subclass 513**.
2. Inventions A and B are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention A has separate utility such as a method and system for delivering digital objects and content associated with a web page to a user, classified in a *different Class/Subclass*. Invention B has separate utility such as a method for integrating a personalization system with a cache-enabled system, classified in a *different Class/Subclass*. See MPEP 806.05(d).
3. The inventions are distinct, each from the other because of the following reasons:
 - (a) these inventions have acquired a separate status in the art as shown by their difference classifications.
 - (b) the search required for each Group is different and not co-extensive for examination purposes.

Art Unit: 2143

For example, the searches for the two inventions would not be the co-extensive because these Groups would require different searches on PTO's classification class and subclass as following:

The Group A search (claims 1-22) would require use of search **class 709, subclass 218** (not required for the invention B).

The Group B search (claims 23-26) would require use of search **class 707, subclass 513** (not required for the invention A).

For the reasons above restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17 (h).
